**INSTALLING SOLAR POWER IN NSW SINCE 1992**

## GRID FEED SOLAR POWER SYSTEMS MAY 2008

System	Panels	Inverter	Output*	Weight/ Area	Full Price**
1 kWatt	6	SB1100	4.3kWh/day	7.8m <sup>2</sup> /150kg	\$5,490
1.5kWatt	8	SB1700	5.7kWh/day	13m <sup>2</sup> /250kg	\$9,950
2.0kWatt	11	SB2500	8.0kWh/day	16m <sup>2</sup> /300kg	\$14,750
2.7kWatt	15	SB2500	10.8kWh/day	22m <sup>2</sup> /410kg	\$20,850
3.5kWatt	20	SB3800	14.4kWh/day	27m <sup>2</sup> /525kg	\$29,750
4.5kWatt	24	SB3800	17.3kWh/day	35m <sup>2</sup> / 675kg	\$35,950
6.5kWatt	36	SMC6000	27.3kWh/day	52m <sup>2</sup> / 1000kg	\$56,750

\* System outputs are based upon average daily insolation for Sydney. Output figures may vary based on site-specific conditions such as roof pitch & orientation, local landscape features & weather conditions at site. Check your current electricity bills for the daily consumption in kWhs and see what energy savings each system will make for you.

\*\* The total price is indicative and includes GST, the \$8000 government rebate and the RECs. Rebates are subject to approval by the Australian Greenhouse Office. Prices may vary with:

- Roof Access (height)
- Distance from the Sydney Metro
- Location of electricity meter.

Included with each Australia Wide Solar system package is:-

- Full installation and commissioning by experienced installers and electricians
- BP or similar solar panel with 25 year warranty.
- SMA Inverter with 10 year warranty
- All installations meet Australian Standards
- All rebate/ utilities paperwork and customer care
- 2 year on-site warranty
- Optional Sunny Beam wireless system monitor
